

On Gratitude.

-Chorus-

For all the love and
All the tears
For all the joy
And all the fears
For all the laughter
And the pain
For all I am grateful everyday
Yes I am
Ohh yes.

-Verse 1-

Why
Took me so damn long to finally understand
That there's no love
If there was never pain
That my mother dying
Taught me how to live
And that **being poor is what now**
Makes me free

The moon only shines when it is
Really dark
So we value peace after we've
Been through war
We will only rise if we can
Take a fall
And because we were weak is that now
we are strong

-Verse 2-

I
I was only brave after
Being afraid
And You?
You look at me different
But we are the same.
So
I know your anger is
Hiding inside your tears
And I know your bullets are
Hiding all of your fears.

Cause
We learned to forgive
Only after learning hate
And we If can be kind
Is because of the pain
After being so blind I hope that
We will see
That if I don't love you
Then how can I love me?

-Verse 3-

This.
This is not compassion is just
Common sense
While dreaming of heaven
we are living in hell
We think we are so smart
Yet this no make no sense
We wanna live forever
Killing Mother Earth?

So please **please**
let's all be quiet
Cause we need to **listen**
What the way of nature
Has been quietly **screaming**
That if we are **greedy**
We will lose it all
That our quest for **power**
Will be our **downfall**

-Coda-

I hope you can
feel it too

Until you do
I won't be through
